

CUSTOM ASSEMBLIES

Transformers
Electromechanical Assembly
Wire Harness Assembly
Boxes & Testing

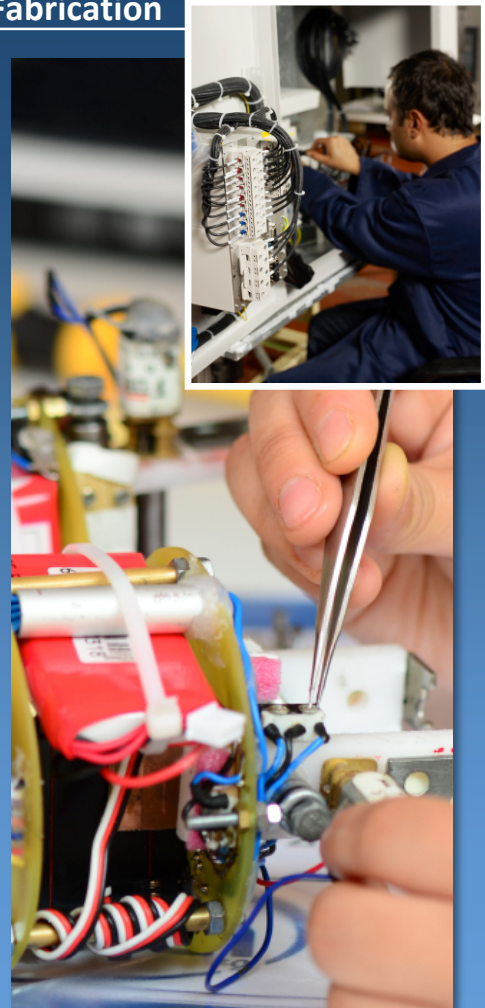

Your Complete Assembly Solution – Start with one of our standard or custom magnetic products integrated into your package, or let us work with you from an initial design to finished assembly to meet your specific requirements.

Custom Designs with No NRE Charges – Our engineers have an average of 28 years experience in the industry. We can design the perfect component for your application, or use your existing drawing, all without any non-recurring engineering (NRE) costs.

Custom Assembly – Prem Assemblies offers small, to large volume production of custom assemblies, wire harnesses and related components used in various electromechanical applications.

Through our value-added services we deliver complete assemblies. This frees our customers from marginal procurement costs and non-core production headaches. We can deliver small or large quantity assemblies on a just-in-time schedule.

CUSTOM ASSEMBLIES

Simple to Complex Designs

We offer turnkey solutions for low-to-mid volume companies and customers who have difficulty achieving economies of scale. Our customers benefit from:

- Reduced manufacturing costs
- Reduced inventory costs by purchasing a bundled product
- Increased profits and efficiency
- Freedom from handling non-core competency processes

Examples:

- Box build
- Electromechanical assemblies
- Component and wiring assemblies
- Wire terminating
- Prototyping
- Functional testing
- Preparation build kits
- Procurement optimization
